PART 3

The only thing I could do to make him shut his mouth was kiss him.
There ...
That's sick!

...he didn't stop me.

I thought doing it would hurt him, but...

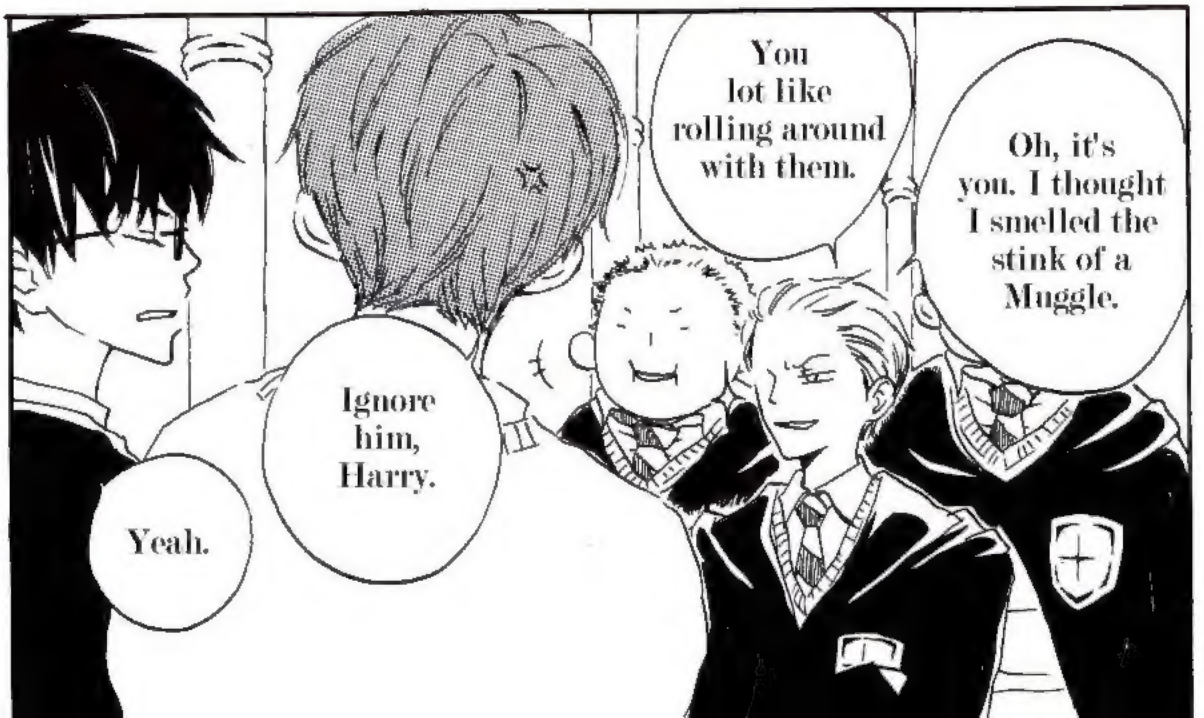
Ugh.
Look who's here.

Well, well.



You lot like rolling around with them.
Oh, it's you. I thought I smelled the stink of a Muggle.
Ignore him, Harry.
Yeah.

doesn't you family have money for robes? I'm so sorry...
Weasley ...
Did you outgrow your robes and have to throw them away? I could have Father buy you some new ones.
Just get down on your knees and beg.

Hey!
I took them off because I was hot!
Yeah, forget about him!
Let's go, Ron.

talking rubbish about me outgrowing my robes!
He's sure persistent enough...
That git must have a lot of free time!
He's making himself look stupid.
He's more to be pitied than blamed.
I don't agree with you.
He's trying to establish himself by looking down on us.
Without his Pureblood lineage, he'd have no confidence at all.
In truth, I do understand his feelings just a little.
Sorry if my pity doesn't extend that far.
Yeah, well...
He doesn't *look* stupid, he *is* stupid.

But no matter what he relies on or who he needs to recognize him,

he'll never be what he wants if he can't see his own value for himself.

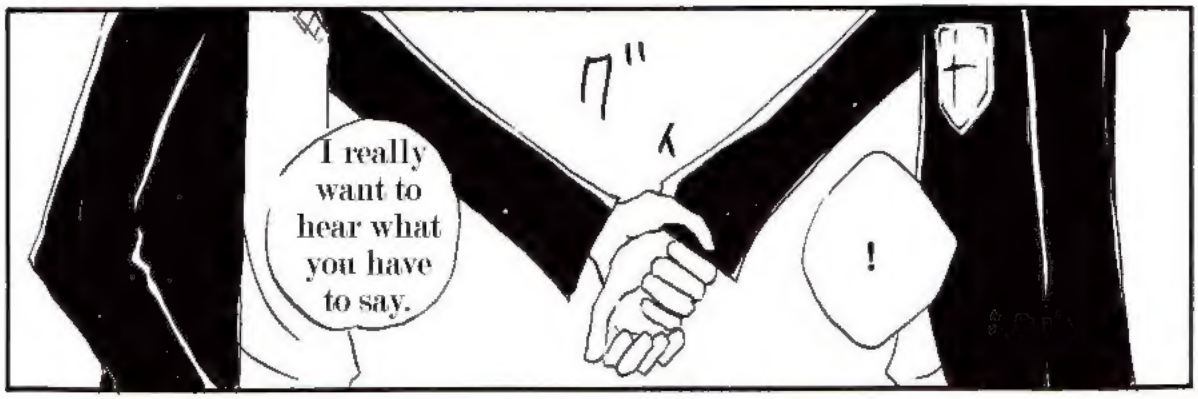
Though I don't see why that means we can't be friends...

How unusual, Potter.
Your crowd of admirers isn't here.
You are.
TOILET
I thought I'd scared you off, and you wouldn't want to talk anymore.
What are you on about?
Have you finally learned to piss all on your own?

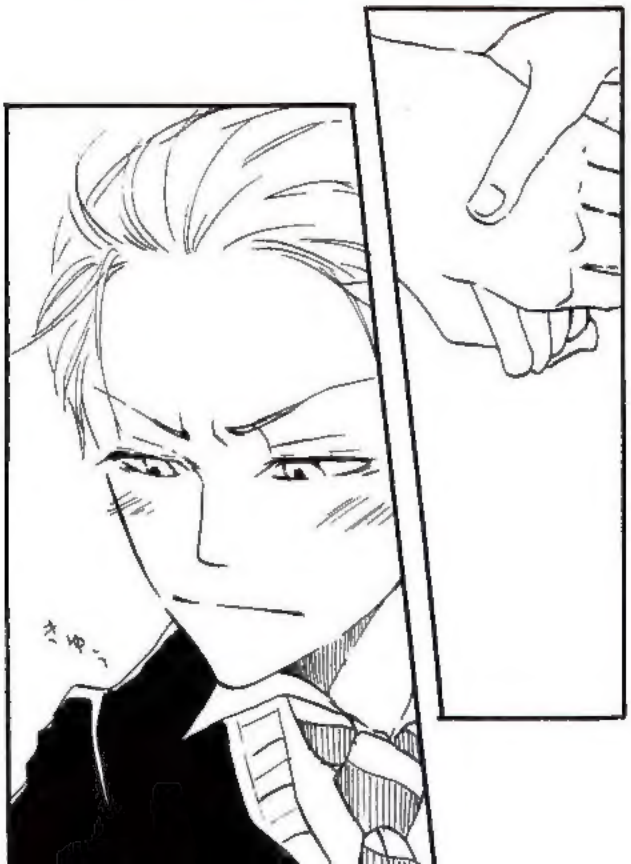
You have some really selfish ideas.
I don't want to talk to you.
Or maybe you've finally realized? That when you're with them, they infect you with their stupidity and Muggle stench...
You--
You rely on them too much.
Hmph. Well, I'll give you a bit of a warning.
!
If all you want to do is exchange insults ...

I'm going to class. See you around.
Hey! Why are you being so blasé?!
しぉっ
You're not worth it.
...
I'm not finished ...
talking to you.
Yeah?
!

Well, that's perfect.
My next class is Divination.
I'll skive off, and we can have a nice long talk.



I really want to hear what you have to say.
!



Hey, let go!
We can talk another time, alright?

That's what you've decided, right?
Care?
Look, why do you care what I say anyway?
And you seem like you feel the same about me.
In fact, I utterly loathe you.
Which is strange because I can't stand you.
You think I hate you?
I don't have an opinion on you either way.
I haven't given it that much thought.
You're so full of yourself, Malfoy.
!

I...
I'm glad.
I was only being flippant.
I don't even look at you.
Did what I said hurt him?
Hey... honestly, what do you want from me?
Are you stupid?!
You're the one who's bloody conceited!
Oh, is that so?
!
Do you want me to kiss you again?

Now answer me nicely.
!!
I sort of disagree.
Don't... don't make fun of me!
Hey!

I know how to cast curses better than you.
My wand...
カラン
give it back ...
So I think it's best that you don't struggle.
Does your head feel strange ...?
I knew ...
Mine?

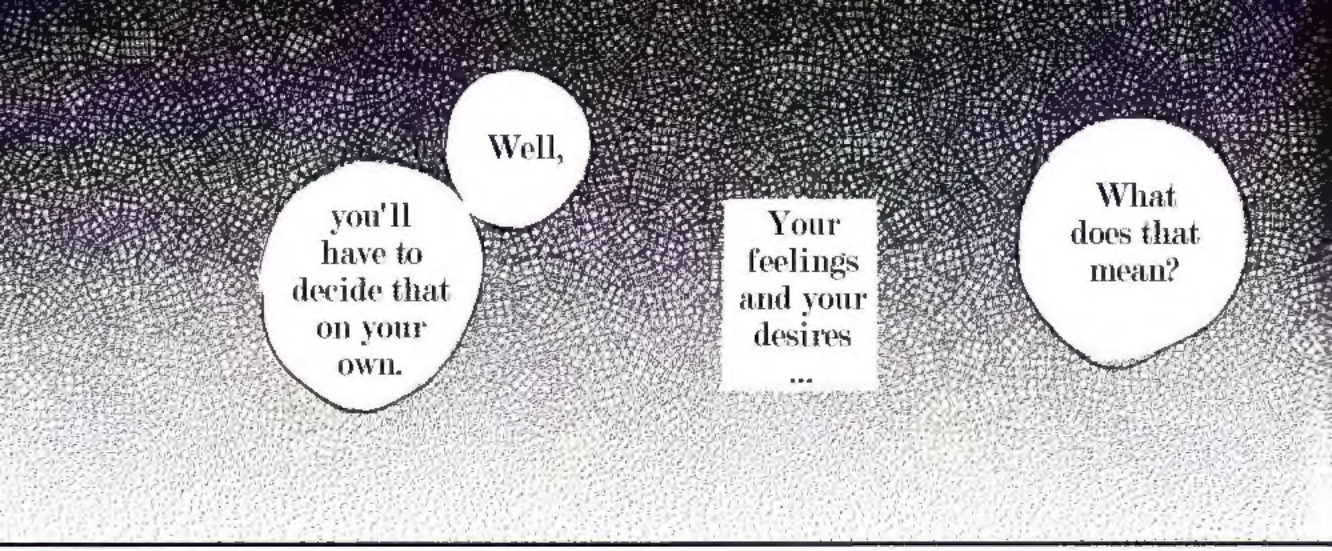
...that this would work out in the end.



there's nothing about them I don't understand.

If I liked you...
I wouldn't have done this sort of thing a second time.
So...
So I think you know ...
exactly how much I hate you.
Yeah.
then I must be imagining...

...this horrible ache I have inside...
